

CWMC - Riding Our Rides Together

Our Motto is 'Riding with Friends' and our purpose is to promote the enjoyment of motorcycle touring, safe riding and friendship. Friends care about and respect each other, and share these values with others. This means we:

1. Always ride with safety in mind
2. Adhere to individual and group riding guidelines as per CWMC requirements which are similar to standards established by other recognized groups such as GWRRA, GWTA and the Motorcycle Safety Foundation
3. Do not drink and ride. While we may enjoy a drink or two, we only consume alcohol after completion of all riding for the day
4. Ride our own 'safe' ride in the interest of ourselves and those that ride with us. We do not attempt to ride beyond our skill level and give due consideration to conditions (e.g., road, weather, traffic)
5. Maintain open communications with the Ride Leader, advising when tired, needing a break, etc
6. Strive to become a better rider and also help others to improve their skills
7. Have fun and encourage fun by others in the group

Come with us and enjoy riding, with a few laughs thrown in.
